Professional Summary

Enthusiastic and highly motivated Computer Science graduate with a strong foundation in programming, data structures, and algorithms. Proficient in Java, Python, and C++, with hands-on experience in developing software solutions through academic projects. Adept at problem-solving, debugging, and collaborating in team environments. Eager to contribute to innovative software development initiatives while growing technical expertise.

Education

Graphic Era Deemed To be University Dehradun, India
B.Tech in Computer Science & Engineering — 9.2/10 CGPA Jan 2023 - Present

- Relevant coursework: Advanced Programming, Data Structures, Algorithms
- Academic award: Consistently achieved top grades in core computer science subjects

St. Joseph's Academy
Class XIIth ISC — 93% Jan 2021 - Jan 2023

- Relevant coursework: Mathematics, Computer Science, Physics
- Academic award: Achieved distinction in all subjects

St. Joseph's Academy
Class Xth ICSE — 92.5% - Jan 2021

- Relevant coursework: Mathematics, Science, English
- Academic award: Consistently ranked among the top 5% of the class

Projects

CLI Coding Agent
Python, Google Gemini API, Git -

- Designed an automated coding agent to fix software issues using Google Gemini API.
- Implemented execution loops and iterative reasoning to refine solutions until task completion.
- Gained practical experience with Git for version control to manage and track changes in collaborative coding projects.
- Implemented optimized algorithms to enhance the performance of the coding agent, reducing runtime by 20%.

AuraShell
Python, RapidFuzz, Tkinter -

- Built a custom POSIX-compliant shell that provides core terminal functionalities with an interactive GUI.
- Implemented built-in commands like pwd, cd, history, type, and exit for better control and navigation.
- Integrated an auto-suggestion and completion feature to enhance productivity.
- Implemented command correction through RapidFuzz to suggest top matches for mistyped commands.

Event Management System
React, JavaScript, MySQL, Bootstrap -

- Developed a web-based application for managing, organizing, and participating in events.
- Integrated a database to store event details, registrations, and user data securely.
- Designed a responsive UI for better user experience.
- Developed REST API functionality for seamless integration of event data with the front-end application.
- Collaborated with a team to develop a responsive and interactive user interface using React and Bootstrap.

Skills, Language and Interests

Skills: Python, C, C++, Java, Go, Node.js, Express.js, HTML, CSS, Bootstrap, React, AWS, MongoDB, MySQL, Git, JavaScript
Certifications: Cloud Practitioner Essential Certification on AWS skill builder
